

Handout: Connections Among Interconnected Systems

Look at the graphic and think about how these four systems affect each other. Use the table below to brainstorm how the six pairs of connections affect each other in both positive and negative ways. You can think about past experience or research your ideas. Students may draw upon prior knowledge as well as doing more research.

Try to find two positive and two negative connections for each link.

Environmental systems ↔ Social justice

Positive	Negative

Economic prosperity ↔ Environmental systems

Positive	Negative

Public health ↔ Environmental systems

Positive	Negative
