A sort of an agenda

• WA State
  – Overview of intersecting initiatives in WA
  – Grouping of intersecting initiatives in WA

• Similar stories from elsewhere, & groupings

• Thinking together about commonalities and differences in the experiences in the room
  – Development of behavior-over-time-graphs (BOTGs) from our stories
  – Development of causal hypotheses (stock-flow and causal loop diagrams)...if we get this far...

• Thinking about whether we want to continue...
